## More About the Safety Smart Program

1. The Safety Smart DVDs are full of additional resources you can use to develop a lesson.
2. The Safety Smart Website is loaded with facts and fun for kids, educators and parents: <http://www.ulsafetysmart.com/>
3. Additional Safety Smart DVD titles include: Safety Smart Online, Safety Smart In the Water, Safety Smart At Home and Safety Smart About Fire.
4. The primary goal of the Safety Smart program is to empower youth to make Safety Smart Decisions at home, school and throughout their communities.
5. Summer camp and childcare programs are two great places to give LifeSmarts Safety Ambassador Presentations.
6. You may access the following four LifeSmarts Safety Ambassador lessons plans on our homepage:  
 Grades K-2 Goes Green!  
 Grades 3-4 Goes Green!  
 Grades K-2 Healthy & Fit!

Access the Safety Smart DVDs by streaming them from the Safety Smart Web page: <http://www.ulsafetysmart.com/content/video/educators> or contact LifeSmarts for a copy.

# Safety Smart!®

## UL Safety Smart Ambassador

Linnea Gaetjens-Tennessee SSA

The Underwriters Laboratories (UL) Safety Smart Ambassador partnership, officially launched at the 2013 LifeSmarts Championship, allows LifeSmarts Teams to give back through community service.

By becoming a Safety Smart Ambassador, you

and your team can deliver interactive safety lessons to younger children.

Teaching an eager and receptive audience is a rewarding experience. Tennessee Coffee County 4-H member, Linnea Gaetjens, said, "Overall, I was very impressed with the students' knowledge and concern for the environment. They were very enthusiastic and attentive. I believe the future of our Earth is in good hands! This experience increased my self confidence in speaking to school-age children. I thoroughly enjoyed giving these programs!"

The resources provided by UL and LifeSmarts make this program easy to use — beginning with the coach lesson plan, a logistics checklist, and step-by-step lessons that LifeSmarts students find are fun and easy to teach. You take it from there, presenting entertaining content to kids ages 4-10, and using the program to satisfy whatever community service requirements you may have. You also have the chance to win prizes and scholarships.

Don't miss the opportunity to be a part of something special and to provide a valuable Safety Smart experience for children in your community.

## FAST FACTS

**Quick and easy** – each lesson is designed as a 30 minute presentation

**Fun** – Timon and Pumbaa from Disney's *The Lion King* introduce the topics in DVDs available free to Student Ambassadors

**Educational** – young children will gain knowledge about important safety topics, and high school students will learn along with them

**Satisfying** – LifeSmarts participants will have the opportunity to provide a quality, interactive lesson to younger children, serving as mentors and demonstrating leadership in their community

**A great fit** – Many students are required to do community service or participate in service learning – the Safety Smart Ambassador program helps meet all of these requirements

**Turnkey** – everything you need to get started is in one place: <http://www.lifesmarts.org/resources/safety-smart/>

The LifeSmarts and Under

### But, Wait — There's more!

Students who participate in the LifeSmarts Safety Ambassador program may be eligible to win **prizes** and **scholarships** by filling out a project assessment form and mailing it to Lisa Hertzberg-[lisah@nclnet.org](mailto:lisah@nclnet.org).
