<p>Directions: This round is about Fraud. The captain of your team will receive a list of 12 words. The captain's job is to help the team guess the words by giving verbal clues. The captain may not use gestures or any form of the word or acronym in the clues provided. The captain may pass a word if they wish, but cannot go back to that word. The scorekeeper will circle the number of each word that the team guesses correctly after I verify the answer. You have seven minutes to complete this round, including a bonus Lucky 7. At the end of this round, I will verify your score and you will move on to the next expert.</p>
