Circle the question number on your scorecard if your team's answer is correct.

	B. Lucky Seven Points 1—2—3—4—5—6—7	
<p>Directions: In this round the spinner rules! Each team member, starting to my left, will swipe the spinner to determine who will answer the question for the team. I will read a definition and the person or group designated by the spinner will respond with the term it describes. Your team may only confer when the spinner allows. If the spinner designates a team question, the captain will give the answer. For all questions, I will accept only the first answer. The scorekeeper will circle the number of the question when I verify you have answered it correctly.</p>
