September 14, 2021

# Health & Safety Month

## Welcome to the all-new TeachSmarts

You've already received the 2021-2022 season's first SmartStart email newsletter, which goes out the first Tuesday of each month. On subsequent Tuesdays, you'll see TeachSmarts in your inbox – short, to-the-point emails highlighting the best resources and tips for educators and LifeSmarts coaches.

## This week's TeachSmarts tip

Check out the LifeSmarts resources on Kahoot!, Quizlet, and Flippity! These quiz-based game sites extend LifeSmarts learning and provide interactive classroom exercises to review vocabulary and check comprehension.

Our first [Kahoot! LifeSmarts Collection](#) is up and features a Health & Safety practice quiz, an OTC/Rx review, and other great Kahoots! for you and your team. Hint: You must have a Kahoot! account and be logged in for this link to work.

On Quizlet, we have two folders set up, and each contains close to 100 Quizlets: [LifeSmarts 2021-2022](#) and [LifeSmarts 2020-2021](#). On [Flippity](#), you can review the September vocabulary on flash cards, play a practice and matching game, and use the vocabulary list to make even more [free Flippity games](#).

**Help LifeSmarts reach even more** students this year! [Donate today.](#)
