

Activity - We Write the Rules

Directions: Divide your LifeSmarts team into two groups - one pair will role play as the parents, the remaining two (or three) students will act as the children/teens in the family. The objective of this activity is to work together to create acceptable social media rules for your family.

Step 1: Decide on your name, age, and personal interests

Step 2: Role play in character as you negotiate an acceptable list of social media rules that are in everyone's best interest. That doesn't mean everyone likes the rules, but everyone must agree that the rules are what is best for their family. (Be respectful of all viewpoints.)

Step 3: List your rules below and review with your teacher or coach
